DARK SOULS™

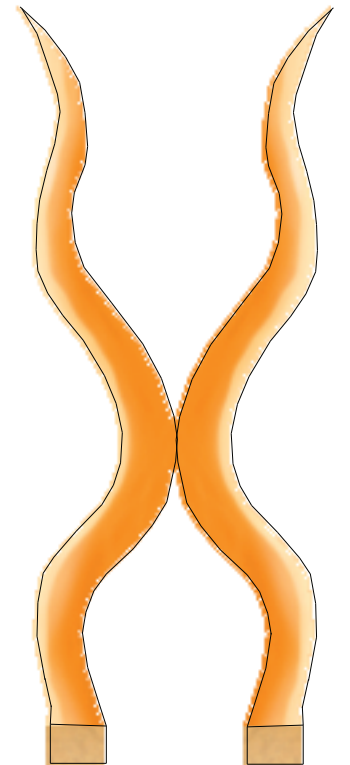

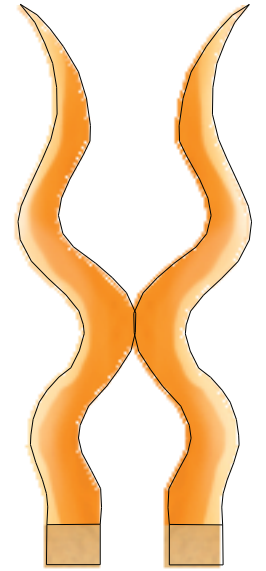

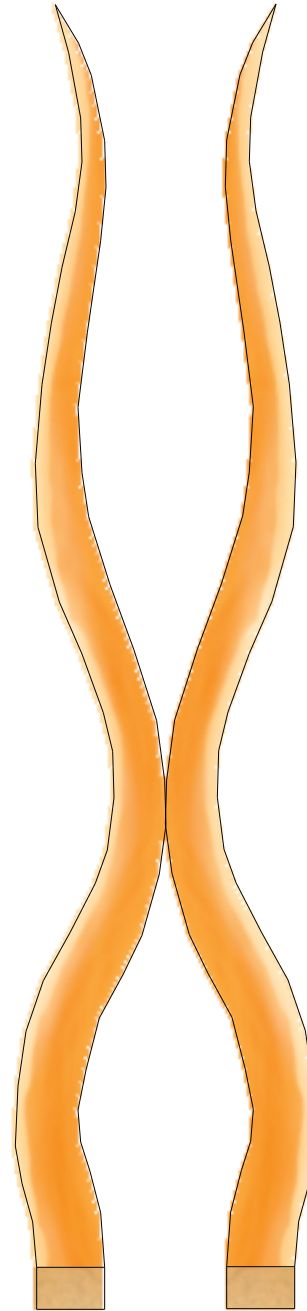

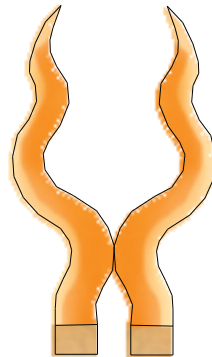

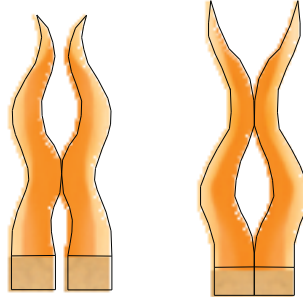

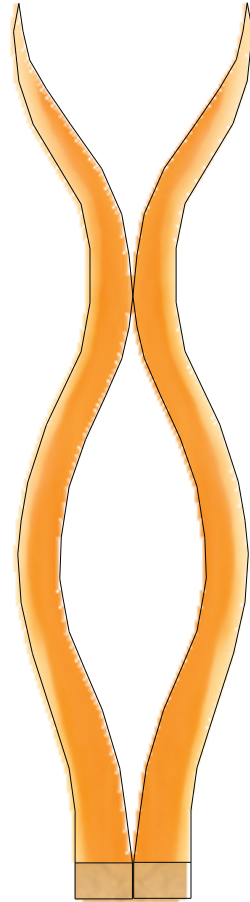

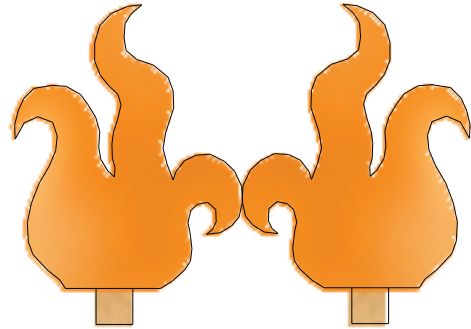

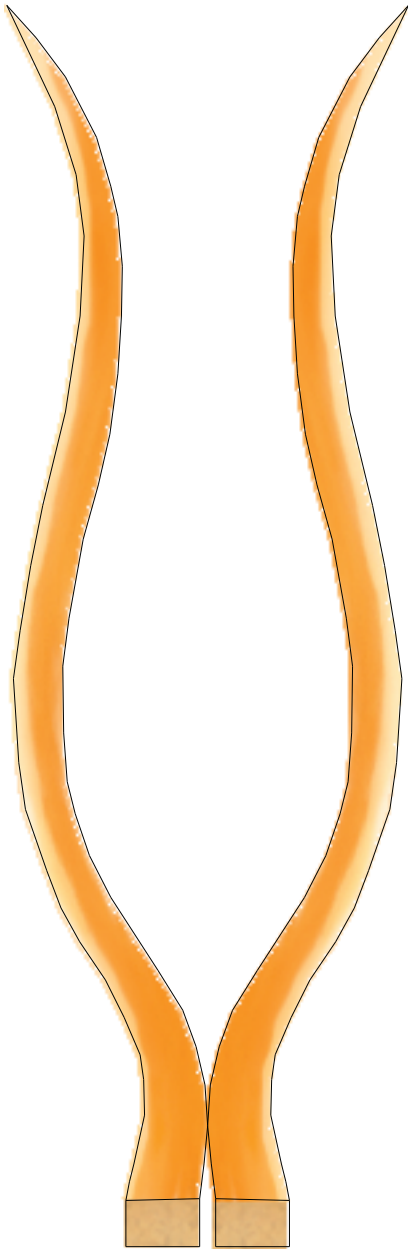

Bonfire by Adam Bass (Orion1189)

NOTES:

- Not all flame pieces necessarily need to be used
- “Tabs” at bottom of flame pieces can be cut down in size if needed, so they do not overlap non-orange areas of the base
- To attach the sword, once completed, apply glue to tabs marked “A” on base (also completed), and to the tabs marked “B” on sword. Gently push sword down through the “A” tabs on the base until it presses against the inside of the bottom portion of the base. Press down firmly, and the angle of the “B” tabs should naturally give the sword a slanted position.
